King of the Cats is a constantly changing, non-static environment. This map is a **layout of the city streets** in KOTC as of the day it was printed (it doesn't cover the surrounding areas, which are quite extensive.) Part of the fun of King of the Cats is discovering things, so we've only filled in Ethyl's House below...you can fill in the rest as you go! Or not, it's up to you; that's part of the fun of being a cat, you can do whatever you want...

A similar map with directions to the dozens of areas on KOTC can be found online.  
Click on the ? Icon in Ethyl's Living Room.

Watch for new areas all the time!
