

You survived Melioration.

Congratulations!

Melioration isn't easy, we know. But you have purrsevered and done well!

You will fight better at Level 2, and each level you raise will improve your fighting. Other interactions in the Kingdom change with higher levels, too. Most of these you will discover. (For example, you may have noticed already that you don't have to go up the stairs at Ethyl's one at a time anymore - jump to the top or bottom stair right off!)

What's ahead? Each level has it's own rewards, but the one to shoot for is Level 9: The Nine. You will then be eligible to join the Royal Mane Society and to obtain new skills, abilities and scores. And beyond Nine is the Signet Triad! Everything changes at Level Nine, and again at Signet Triad.

But that's life; everything changes. For now, your change to a new level is enough! Bask in your achievement. We here at KOTC are proud of your accomplishment. Making your way to The Nine takes some time and patience. That you survived the Melioration is evidence of your abilities in this regard!
